AI advisor: your year in review & suggestions

2026 in review

You spent **110,058.00 MAD** this year and saved **38,197.00 MAD (25.8%** of your income). Your spending was steady most months, with clear seasonal spikes in summer.

Key insights

- **Housing** was your biggest line (40,000.00 MAD), as expected for a fixed cost.
- **Groceries** and **Transport** are the categories with the most room to optimise.
- July and August were your most expensive months: holidays add up fast.

Suggestions for 2027

- 1. Automate a fixed monthly transfer to savings the day your salary arrives.
- 2. Start a **holiday sinking fund** in January so summer doesn't hit your balance.
- 3. Set category budgets for groceries and restaurants and review them monthly.
- 4. Build a 3-month emergency fund before investing.
- 5. Re-negotiate one fixed bill (phone, internet, insurance) each quarter.

One habit to start in January

Check your Money Monitor dashboard every Sunday evening: **5 minutes a week** to stay in control.
